

Datasheet

Product Name : 6 Scenes Zigbee Wall Touch Panel

Model No. : ZD-650P

Release Date : 2020-09-08

Document version.

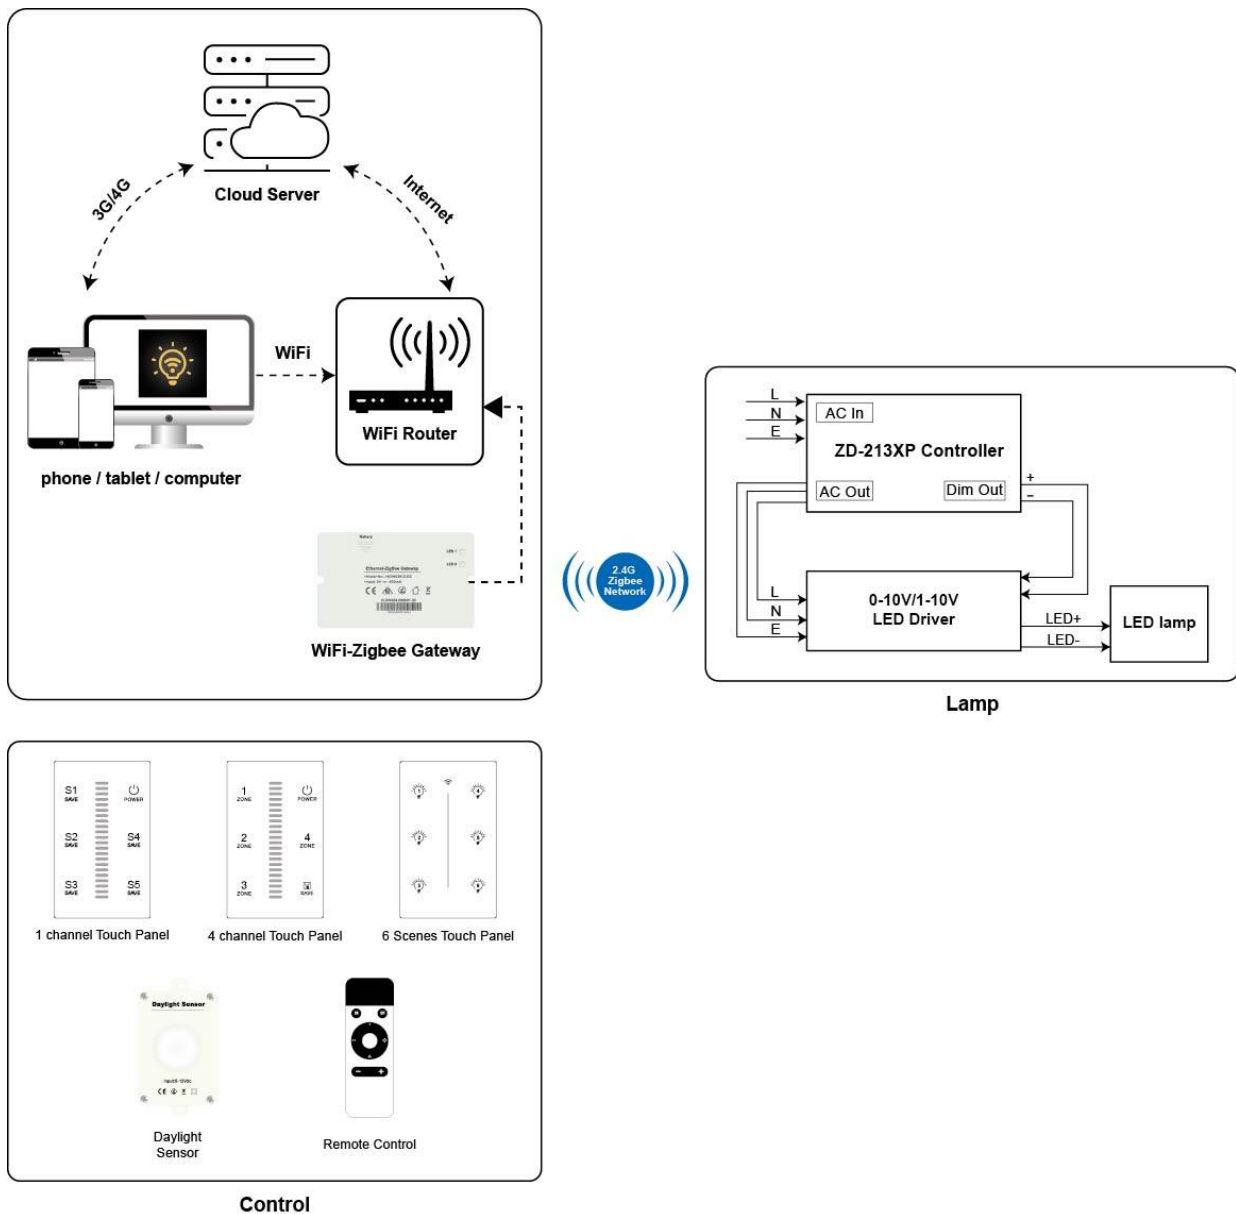

2018/03/02 Ver. 1.0
2019/05/12 Ver 1.1
2020/09/08 Ver 1.2

Approved	Audit	Design

1 Functions

ZD-650P is a wireless wall touch panel, follow Zigbee HA1.2/Zigbee 3.0 protocol, it is able to link 6 different user-defined scenes in the gateway to the 6 buttons . All the setting is easily achieved via Cellphone app. After setup, the touch panel directly control the lamp group in the zigbee network without via Gateway.

2 Infrastructure

Product photo
